Roger,

This looks good. My only concern is the timelines on the last two pages. We are looking at "making the claim" in early July, as opposed to August 1. I assume this will shift some of the communication activities. I don't have the exact date as yet, but we should know in the next couple of days. Otherwise, I think you should send this out for comments as soon as possible.

Mark

Dear Mark,

As we discussed a minute ago I suggest sending out a draft comprehensive communication plan and ask representatives of the different units to call back and discuss with you and/or me any modifications they might suggest. If we have all pieces worked out, we could redistribute an updated plan for a team discussion on April 4, 2003.

The current draft I am working from looks like this:

<< File: 2003-03-20 JLI CommunicPlan.ppt >>

Please have a look and let me know whether we can send it out as a first draft. See the '?'. This is where I have no input yet re what units are planning. It may also be too 'WSA'. Do you have suggestions to improve it?

Regards,
Roger
